1. In view of favorable progress reported by [REDACTED] during his recent visit I think it would be appropriate to schedule a visit in the near future to [REDACTED] in company with [REDACTED] to review results they have achieved to date. There appears to be a good possibility, if what Herb says is realistic, that [REDACTED] may have developed a continuous material for which we may have an immediate use for the U-2 for this summer's operational use. I should think that [REDACTED] would be interested in making this trip.

2. Will you please indicate whether you desire to have arrangements made for such a trip and if so when.
